

Green and Red
By: Nilak the Prophet

Chorus:

Listen to the bright bells ringing,
Sounds that make you wish it never ends,
Lights cover all the cities,
Green and Red they warm my heart,

Bridge 1:

Christmas, Christmas, Winter Christmas
Presents waiting for the little ones,
They make their lists so precious,
Waiting to hear Santa Claus,
Christmas time is here again,
I wish the season would never end,
But life has seasons and they pass,
So celebrate and make it last, and

Verse 1:

Little baby Jesus,
Born in a manger,
Such an odd place for the savior of strangers,
That's the beauty of it,
He came to be the least,
And represent the homeless, kids without a feast,
Man we're too used to this luxury country,
People all over the world, they barely get to eat,
Make this Christmas more than just a family thing,
Take it out into the streets, share the news of the king,
Bring the hope to the lost souls waiting to die,
Tell em Jesus paid the price, that he gave his own life,
You ain't gotta take the flames of eternal hell,
God's sent his only son, Maybe that rings a bell,
And by doing so, sin was completely destroyed,
Now we gotta give our lives, and look to the Lord,
Ya'll want to be the saints of this era and time,
Make the Gospel more than just a nursery rhyme,

<Chorus>

Bridge 2:

Merry Christmas, Merry Christmas,
To you all, and have a good night,
Don't the forgot the truth of Christmas,
Jesus gave his life for us,

<Chorus>
