

Hey

Chorus: x2

Everybody say HEY

Everybody say HO

Now everybody say (Na[14x])

Verse 1:

Love, it's a beautiful thing,
I get chills every time that I sing,
Grew up nervous ever since I was a kid,
Now I'm talking to you, reflecting on the things I did,
You ever know what it feels like to cower,
Too scared to push on, and you can't find the power,
Restless, desperate cuz you know it's the final hour,
But every time you try, you end up with a glower,

[Chorus]

Verse 2:

You got those eyes that sparkle like the morning dew on grass,
A face I can't ignore every time that I pass,
Every day I see you, it feels like a Holiday,
And might as well be one, cuz I don't get to see you every day,
Maybe I'm obsessed, but I can't deny my feelings,
I can't live a lie, cuz Lord that's not honest living,
I've thought about you for a while, now I'm speaking,
Lord God give me the words, there's more of these reasons,

[Chorus]

Bridge 2x:

I've never seen so much beauty at one time,
One place, Your face,
Awe Struck, Oh heaven help me,
I've never been so in love with another,
I'm sure there's no other,
Awe Struck, Oh heaven help me,
