

## I Surrender (Background Remix)

### Chorus:

My hearts burning, I can feel the pain,  
I look around but can't make out a thing,  
The world is oh so cold, And I just wanna say another thing,  
Lord God I surrender,  
Lord God I surrender,  
Lord God I surrender,  
So God please take the lead,

### Verse 1:

I see the clouds forming,  
I hear the people screaming,  
I know it's crazy, but sometimes I wish that I was dreaming,  
Cuz then it wouldn't be real, I could wake up in the morn,  
The sun would shine again, I wouldn't have to face this storm,  
But it's my destiny, Why did he call on me,  
The one that people follow in times of disparity,  
I'm called to charity, And God it's finally clear to see,  
That I was born for you, and born to give the most of me,  
I'm done trying to be the best,  
I got that off my chest,  
I'm nothing in your eyes, I'm just a bunch of selfishness,  
And that's why I need you, need you to take the lead,  
Cuz every day I try to take it, I can't do a thing,  
At least not by myself,  
So God I give it up,  
A living sacrifice, for you, I'm done with trusting luck,

### [Chorus]

### Verse 2:

I'm calling out to you,  
Cuz I need your assistance,  
I pray you show me mercy,  
I pray you fix my business,  
Cuz honestly I sin daily, but the flesh covers up,  
The conviction and the stuff,  
I try to play it tough,  
Life is rough, cuz of Adam and Eve,  
Eating that fruit they believed would help them see,  
The true nature of all of life's capacities,  
Rather than getting the cheese, they inhaled a disease and so,  
I play the background, cuz I know I'm unworthy,  
Your son took the cross, and took the hits, and took the hurting,

Now we're fighting hard, and giving it our best,  
Lord help us out, we need your grace, we're done with selfishness,  
I'm asking for your armor, to fight this dreadful war,  
We got the shield, but with faith, God give us a sword,  
Lord help us to do it, Help us to play,  
I need your satisfaction, I need your help mane,

[Chorus]

Verse 3:

I know I'm safest when I'm in Your will, and trust Your Word  
I know I'm dangerous when I trust myself, my vision blurred  
And I ain't got no time to play life's foolish games  
Got plenty aims, but do they really Glorify Your name  
And it's a shame, the way I want to do these things for You  
Don't even cling to you, take time to sit and gleam from You  
Seems You were patient in my ignorance  
If ignorance is bliss, it's 'cause she never heard of this

[Chorus]
